Dear Chief and Surya

I am cc'ing Nitya and Wajahat from IITM side. Their job is to keep track of the amount of data collected per language per vendor AFTER KL University has approved the quality.

For each vendor, for each language, can you please co-ordinate with Nitya and Wajahat, so that payment can be made appropriately.

Important Points:

- (1) Mostly monolingual (some borrowed english words okay)
- (2) Mostly conversational or spontaneous speech (very little read speech)
- (3) 70% wideband and 30% telephone speech
- (4). Cover 4 broad dialects per language

Thanks!

best regards

Umesh
